Response to Amendment

1. This is in response to amendment filed on 11-18-03 (Paper # 8).
2. Claims 1-29 remain for examination. Claims 27-29 are newly presented for examination.

Election/Restriction Problems

3. Newly submitted claims 1-29 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Original claims were directed to an invention of a record carrier recording stereo signals and data signals in a channel comprising first portion and second portion, classified in class 381/10, 381/23, and/or 369/59.27.

The new amended claims and new claims are directed and stereo signal being recorded USING first physical feature and second physical feature which are different from each other, classified in class 369/275.3.

Since applicant has received an action on the merits for the originally presented invention, this invention has been **constructively elected by original presentation** for prosecution on the merits. Accordingly, **claims 1-29 are withdrawn from consideration as being directed to a non-elected invention.** See 37 CFR 1.142(b) and MPEP § 821.03.

4. Applicant's arguments with respect to claims 1-29 have been considered but are moot in view of the new grounds of rejection and/or withdrawn from consideration.
5. Applicant's amendment necessitated the new grounds of rejection presented in this office action. Accordingly, **THIS ACTION IS MADE FINAL.** See M.P.E.P. §

Art Unit: 2655

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.
